IICA The International Institute
of Clinical Aromatherapy
PROFESSIONAL EDUCATION IN AROMATHERAPY SKIN & BODY CARE

Eve Taylor, is the founder of the Institute of Clinical Aromatherapy and regarded as the pioneer of modern aromatherapy. Respected by professional skin care therapists and estheticians worldwide for more than 40 years.

Eve Taylor products are only available through salons, spas, and professional therapists. The therapist should offer professional home care advice and recommendation to ensure the client gets the right product for the right reason to benefit and maintain a regime appropriate to their skin care needs. Eve Taylor products follow a criteria of being naturally safe and effective and adopt a contamination free packaging concept. They do not contain mineral oil, artificial fragrance, or parabens .

With over 4 decades of skincare knowledge and experience delivering products that unite the very best of plant essences with the needs of the skin, you can be sure that you are providing your clients skin with the consideration it deserves.

EXFOLIATING BODY SCRUB MARINE SALT & LAMINARIA

As a first step of any body treatment in the spa or salon, effective exfoliation provides purification of the skin and prepares it for further treatment. The scrubbing salts are made with marine salt rich in trace elements. Sea salt exfoliates while releasing mineral elements from the micronized seaweed well known for its detoxifying properties.

EXFOLIATOR

KEY INGREDIENTS

Sea salt: Skin softening and mineralizing properties. Removes excess oil and dead cells from the surface of the skin and is reputed to tone and hydrate the skin as well as improving circulation.

Silica: Extremely nourishing and improves elasticity

Laminaria digitata: Rich in essential energizing minerals and trace elements. It contains amino acids and Vitamins, A, B, C and E. It helps to stimulate the production of collagen in the body and because of its purging, draining and metabolism accelerating properties, it strengthens the immune system and protects against free radicals.

Function

A spa style exfoliation used to polish and prepare the skin of the body for further treatments. The removal of surface skin cells allows a better and more even absorption of further key ingredients used in the next treatment phase.

Application

Mix 1 - 2 teaspoons (5-10ml) of **Exfoliating Body Scrub** (for full body treatments) with several pumps of **Aqua-Mass** in a flexible bowl until a paste consistency is achieved. Apply directly to the skin and work over the area with large free flowing circular movements. Focus on areas of skin build up such as knees, elbows and heels. Remove with warm, moist mitts, steam towels or shower off. Proceed to next treatment phase.

EXFOLIATING MOUSSE POPPY SEED & BLACK PINE

This creamy mousse exfoliant effectively sloughs away surface skin revealing a smoother, softer skin. Ideal for use in the spa or at home to maintain skin smoothness. Gently stimulates circulation and encourages new cell regeneration. Enriched with natural essential oils to detoxinate and tone. Skin is left feeling revitalized, soft and prepared for treatment phase in the salon or spa.

INGREDIENTS

INGREDIENTS	COMMON NAME	PROPERTIES	EFFECTS

Papaver somniferum seed	Poppy seed	Abrasive	Exfoliant
Phenoxyethanol	Phenoxyethanol	Preservative	Preservative
Tetrasodium EDTA	Tetrasodium EDTA	Chelating agent	Thickening

EXFOLIATOR

Key ingredients

Poppy seed: Abrasive but gentle on the skin, it sloughs off surface skin cells to reveal a softer, smoother skin.

Sea Salt: Physically removes dull drier cells revealing a more hydrated skin.

Black pine: Helps invigorate the circulation so nourishes the skin leading to improved texture.

Function

This rich exfoliating mousse easily removes surface dull skin leaving it feeling soft, smooth and hydrated. May be used all over the body in the salon or spa setting or for spot treating body treatments. An ideal product to use in pedicures, especially where skin calluses may be found.

Application

Salon use: Gently massage onto damp skin using circular motions. Concentrate on areas of thicker, drier skin such as elbows, knees and heels. Rinse with warm damp mitts, steam towels or shower off. Proceed to next treatment phase.

Home use: Ideal to use in the shower 2-3 times a week for all over smoother skin.

BODY MASSAGE OIL

Key ingredients

Grapeseed oil: Light textured oil that provides excellent slip and glide. Rich in linoleic acid, an essential fatty acid the body cannot synthesize, vital for healthy skin. High in OPC's (oligomeric proanthocyanidins) a type of anti-oxidant. Also has anti-inflammatory properties.

Sesame seed oil: Nourishing and soothing to the skin. Has emollient properties that keep skin soft and smooth.

Vitamin E: Antioxidant properties as well as skin conditioning.

Function

Massage base that is free from essential oils, water dispersible so easily removed from the skin for clients with the preference to remove any oily residue. Has a long work ability time and compatible with essential oils. Nut free formula makes it perfect for anyone with nut allergies. Ideal for use with **Exfoliating Body Scrub** especially when working in a dry room set up as this exfoliation combination is easily removed with warm damp mitts.

Application

Pump desired amount into hand and apply to body. Massage using firm, flowing movements depending on clients needs and chosen technique. Excellent for use with hot stone massage.

Methylisothiazolinone	Methylisothiazolinone		Preservative

BODY WRAP

Key ingredients

Laminaria digitata: Rich in essential energizing minerals and trace elements. It contains amino acids and vitamins, A, B, C and E. It helps to stimulate the production of collagen in the body and because of its purging, draining and metabolism accelerating properties, it strengthens the immune system and protects against free radicals.

Lithothamnium calcareum: Rich in calcium and magnesium, but also contains significant levels of other minerals and trace elements like phosphorous, potassium, manganese, boron, iodine, zinc, copper, selenium and cobalt. These minerals restore tone and vitality to the body

Fucus vesiculosus: It tightens skin and improves the blood circulation while helping to combat cellulite

Aesculus hippocastanum: The saponin content found in the seeds, has been shown to: promote circulation and possess anti-inflammatory properties;

Hedera helix leaf: Active ingredient is saponosids. They also help the lipids (fatty contents) stocked in the adipocytes (fat cells) to be either used as a source of energy or be eliminated.

Function

Seaweed body masks cleanse and detoxify the body making it an excellent herbal skincare treatment. The skin absorbs the minerals that are essential for restoring its tone and vitality. These minerals in the seaweed body wrap help to disperse local fatty deposits ensuring soft, fresh and healthy looking skin.

Application

For best results apply after an exfoliating treatment, over **Body Oil No. 11** or **No302**.

Apply Marine body mud in a thin layer directly on the body. Wrap the client in a plastic spa sheet, towels or blanket. Avoid application to wounds or broken skin. Use 100-150mls for full body treatment

Treatment duration: 20 to 30 minutes.

Remove with warm moist mitts, steam towels or shower off if available. Proceed to next treatment phase.

SELF HEATING BODY WRAP LAMINARIA & SPIRULINA

This body mask is a combination of spirulina, laminaria and marine silt. Spirulina is a natural source of amino acids, which are necessary to restore firming tissue. Vitamins A and E and acts as a skin toner. Laminaria provides organic iodine, marine salt and mannitol, have respective slimming, re-mineralizing and moisturizing properties. Marine silt contains numerous trace elements and show greater therapeutic characteristics than other clays.

INGREDIENTS

Magnesium silicate
Fumaric acid
Laminaria digitata
Maris sal
Magnesium oxide
Maris limus
Spirulina maxima

COMMON NAME

Magnesium silicate
Fumaric acid
Kelp
Sea salt
Magnesium oxide
Sea silt
Algae

PROPERTIES

Bulking agent
Antioxidant
Amino acids and vitamins
pH regulator
Elimination
Trace elements
Beta carotene and superoxide dismutase

EFFECTS

Anti caking
Skin conditioning
Free radical protection
Detoxifying
Cleansing
Remineralizing
Skin resistants

BODY WRAP

Key ingredients

Laminaria digitata: Rich in essential energizing minerals and trace elements. It contains amino acids and vitamin A, E, C and B. It helps to stimulate the production of collagen in the body and because of its purging, draining, metabolism accelerating and re mineralizing properties, and protects against damage from free radicals.

Maris limus: Skin-softening and mineralizing properties. Removes excess oil and dead cells from the surface of the skin and is reputed to tone and hydrate the skin as well as improving circulation.

Spirulina: Contains high concentrations of all 8 essential amino acids and contains almost all known anti-oxidants: C, B1, B5 and B6, the minerals zinc, manganese, copper; amino acid methionine, beta-carotene and vitamin E.

Function

Rich in marine actives the algae **Self-Heating Body Wrap** is formulated with micronized seaweed, well-known for their detoxifying & re-mineralizing effects. This very fine powder turns into a homogenous, effervescent & self-heating paste when mixed with water. While the temperature gently rises the wrap releases its marine actives. The progressive heating effect and its natural effervescence help to create a feeling of well-being and stress relief.

Application

Use 100g-150g (2-3 level scoops) for a full body treatment. Mix equal scoops of powder with warm water until you get a homogeneous paste.

Apply quickly in a thin layer and wrap the client in a plastic sheet. Avoid application to wounds or broken skin.

Treatment duration: 20 to 30 minutes.

Remove with warm moist mitts, steam towels or shower if available. Proceed to next treatment phase.

TONING MASK CAMELLIA & HORSETAIL

An ideal mask for its firming effect, allowing an improved tone and texture of the skin giving an instantaneous tonic and refreshing feel. **Toning Mask** compensates for dehydrating factors in the epidermis by transferring via osmosis the active ingredients to the epidermis, thus allowing a hydrating effect on the skin. This type of peel off mask firms the contours and moisturizes at the same time.

INGREDIENTS

Solum diatomeae
Kaolin
Algin
Calcium sulphate
Tetrasodium pyrophosphate
Equisetum arvense
Laminaria digitata
Camellia sinensis
Magnesium oxide

MASK

Key ingredients

Laminaria digitata: Laminaria digitata: Rich in essential energizing minerals and trace elements. It contains amino acids and vitamin A, E, C and B. It helps to stimulate the production of collagen in the body and because of its purging, draining, metabolism accelerating and re-mineralizing properties. It strengthens the immune system, and protects against damage from free radicals.

Equisetum arvense: High silica content to improve texture and tone

Laminaria digitata: Amino acids and vitamins promotes tissue regeneration

Camellia sinensis: Anti-inflammatory for its soothing qualities

Function

This alginate based mask quickly sets on the skin to help hydrate whilst firming areas of slackened skin texture. It is designed to spot treat specific areas of the body requiring extra attention. Ideal treatment for firming the bust, upper arms, abdomen or thighs.

Application

For maximum toning benefits apply **Toning Mask** after exfoliation over **Ice Tone**.

Mix the powdered mask with tepid water. Alternatively, use half water and half Hydrolat according to skin condition being treated. 3 rounded scoops of mask to 3 scoops of water will sufficiently cover both upper arm areas. This serves as an idea of the amount of mask needed for other body parts being treated.

Put powder into flexible bowl, pour all liquid into the powder and stir vigorously until smooth paste is achieved.

Apply immediately using spatula. The mask sets in about 8 minutes (following application)

Leave mask on for a minimum of 15 minutes, then peel off to remove. Proceed to next treatment phase.

ELIMINATION MASK LAMINARIA & GUARANA

Guarana (Paullinia cupana) is a native plant to the Amazon. Guarana is one of the rare plants which contain natural caffeine. By combining the caffeine contained in guarana and iodine in laminaria, these ingredients activate and facilitate lipid bio-catalysis and draining. Horsetail extract in conjunction with marine trace elements encourages local blood circulation as well as enhancing elimination of toxins. At the same time a hydrating effect on the skin is provided. This type of peel off mask aids elimination and moisturizes.

MASK

Key ingredients

Guarana: Used for its toning and astringent properties and to help reduce cellulite, and to help reduce cellulite.

Laminaria digitata: Rich in essential energizing minerals and trace elements. It contains amino acids and Vitamins, A, B, C and E. It helps to stimulate the production of collagen in the body and because of its purging, draining and metabolism accelerating properties, it strengthens the immune system and protects against free radicals.

Horsetail: Rich in silica which nourishes and improves elasticity.

Function

This alginate based mask quickly sets on the skin to help boost circulation, thus assisting with elimination so encouraging a speedier removal of toxins. The inclusion of silica ensures a firming effect whilst hydrating the skin too. It is designed to spot treat specific areas of the body requiring specific attention. Ideal treatment for areas affected by cellulite to encourage removal of toxin build up within the tissues.

Application

For maximum elimination benefits apply **Elimination Mask** after exfoliation over **Body Oil No. 302**

Mix the powdered mask with tepid water. Alternatively, use half water and half Hydrolat according to skin condition being treated. 6 rounded scoops of mask to 6 scoops of water will sufficiently cover both outer thigh areas. This serves as an idea of the amount of mask needed for other body parts being treated.

Put powder into flexible bowl, pour all liquid into the powder and stir vigorously until smooth paste is achieved.

Apply immediately using spatula. The mask sets in about 8 minutes (following application)

Leave mask on for a minimum of 15 minutes, then peel off to remove. Proceed to next treatment phase.

MOISTURIZER RESCUE & REPAIR

Key ingredients

Vitamin D3 (cholecalciferol): Nourishes and protects skin. Contributes to skin cell growth, repair and metabolism.

Hyaluronic acid: Excellent for sun damaged, dehydrated, ageing or environmentally stressed skins. Important role in tissue hydration, lubrication and cellular function. Its hydrating properties result in increased skin smoothness.

Chamomile: Used for its calming and anti-inflammatory benefits, Chamomile soothes and conditions the skin.

Squalene: Squalene is a lipid derived from various plant sources. It is naturally produced in skin cells to lubricate and protect the skin. It is readily absorbed making it an ideal ingredient in skin care products. Anti oxidant properties of squalene aid in skin protection.

Function

Helps destroy free radicals that cause premature ageing. Maintains skin's overall health and improves skin elasticity.

Application

Gently massage cream into areas to be treated using circular upward motions until absorbed.

CELLULOSE CONTOUR CREAM ANTI-CELLULITE WITH QUINOA SEED

A scientifically-proven formula that visibly reduces existing cellulite inhibiting fatty acid production, while stimulating lipolysis, which recycles these fatty acids into energy. **Cellu-lose Contour Cream** uses this innovative mode of action by recycling fatty acids into energy and inhibiting fat storage. By suppressing cell maturation of new cells the adipocytes (fat cells) are forced to stay dormant.

INGREDIENTS

MOISTURIZER CELLULOSE

Key ingredients

Hyaluronic acid: Excellent for sun damaged, dehydrated, ageing or environmentally stressed skins. Plays an important role in tissue hydration, lubrication and cellular function. Its hydrating properties result in increased skin smoothness, softening and decreased wrinkles.

Chenopodium quinoa seed extract: Acts as a slimming agent. Possesses anti-angiogenesis, limits neovascularization, isolation of adipocytes, which cannot differentiate themselves.

Squalene: Squalene is a lipid derived from various plant sources. It is naturally produced in skin cells to lubricate and protect the skin. It is readily absorbed making it an ideal ingredient in skin care products. Anti oxidant properties of squalene aid in skin protection.

Function

Regenerates skin and strengthens the tissues mechanical properties, improving tightness, firmness, suppleness & elasticity. Inhibits fat storage and thus helping to prevent cellulite. Helps maintain the figure and decrease the accumulation or formation of new fat cells.

Application

Gently massage cream into areas where cellulite is present (hips, bottom, thighs, inside upper arms) using upward circular motions. Finish by applying the product to the abdomen using clockwise circular movements.

MOISTURIZING BODY BUTTER SEABUCKTHORN & SHEA BUTTER

Designed to restore optimal hydration to the most dehydrated and lipid-depleted areas of the body. This rich moisturizing body butter is quickly absorbed into the skin and offers the plant equivalent of silicone and natural moisturizers. Hydrating the epidermis eliminates skin stress to restore firmness and elasticity.

INGREDIENTS

INGREDIENTS	COMMON NAME	PROPERTIES	EFFECTS
Aqua	Water		
Butyrospermum parkii,	Shea butter	High in fatty acid	Cellular restoration
Olea europaea	Olive butter	High vitamin E/anti-oxidant	Moisturising

Magnesium sulphate	Magnesium sulphate	Bulking agent	Viscosity controller
EDTA	EDTA	Chelating agent	Viscosity controller

MOISTURIZER BODY BUTTER

Key ingredients

Sea buckthorn: Anti-inflammatory and anti-microbiological properties, also promotes tissue regeneration. The berries have very high levels of beta-carotene, Vitamin C, Vitamin E and flavonoids. The berries are also rich in Vitamins B1, B2, K and P.

Shea butter: Protects the skin from both environmental and free-radical damage. It contains vitamins A and E, and has demonstrated both antimicrobial and anti-inflammatory properties.

Olive butter: The softening, regenerative and antioxidant benefits and is a super nutrient rich moisturizer

Coconut butter: Contains high concentrations of all 8 essential amino acids and contains almost all known anti-oxidants: C, B1, B5 and B6, the minerals zinc, manganese, copper, amino acid methionine, beta-carotene and vitamin E.

Function

Deeply nourishing and moisturizing for ultra dry skins. Especially beneficial for elbows, knees and heels where skin may be thickened and under nourished.

Application

For best results use after an exfoliating treatment or as a final treatment phase. Gently massage into skin using circular movements until completely absorbed.

TREATMENT GEL

Key ingredients

Menthol: Has the ability to chemically trigger the cold-sensitive receptors in the skin provoking the cooling sensation when topically applied to the skin surface.

Peppermint: This cooling and refreshing essential oil cools the skin, reducing redness, heat and calms irritation.

Allantoin: Extracted from the comfrey plant its soothing, anti-irritant properties help to increase skin smoothness whilst having moisturizing benefits.

Function

A refreshing, cooling gel that is ideal for aching legs especially when standing for long periods of time. The icy feel of this minty formula also lends itself to a firming toning sensation. An ideal choice of product to be used under **Toning Mask** during a salon or spa treatment.

Application

Apply using upward movements to legs and thighs. For tired, heavy legs apply to the entire leg area work into skin until absorbed.

TREATMENT GEL

Key ingredients

Essential oils: It is the synergistic blend of peppermint, thyme, clove, ginger, juniper berry, marjoram, black pepper and rosemary that collectively soothe and reduce localized areas of sensitivity.

Aloe vera: forms the cooling, soothing base that allows fast penetration into the tissues.

Function

Helps relieve joint and muscular discomfort. Quickly absorbs into the skin so ideal for use pre and post sporting activity.

Application

Apply a small amount directly onto areas of discomfort and with a light rotational movement massage until absorbed. Apply morning and night or as needed.

CHECKLIST FOR PERFORMING EVE TAYLOR BODYLINE ACTIVES SALON AND SPA TREATMENTS

Spa Supplies:

- Body Bristle Brush
- 5ml Scoop/teaspoon
- 50ml Scoop/measure
- Spatulas
- Flexi bowls
- Measuring Jug
- Plastic Spa Sheet (disposable wrap)
- Bath towels
- Hand towels
- Disposable underwear
- Shower cap
- Warm blanket or Thermal blanket

Product removal options:

- Bowls and toweling mitts
- Steam towel caddy and towels
- Shower

Please note: All body wrap and body mask measurements are using a 50ml scoop

FULL BODY PROTOCOL

1. Have client wear disposable underwear; remove all jewellery and obstructive piercings. Bed should be draped with blanket, couch roll, plastic spa sheet and towels on top for client to lie on.
2. Wet mitts in hot water with a few drops of **Peppermint Hy-drosol** added and cleanse hands and feet. Press feet dry with a towel.
3. Exposing one body area at a time, with client lying face up begin dry body brushing on feet and legs, arms and décolleté. Finish with clockwise, circular strokes on the abdomen.
4. Mix 1-2 teaspoon of **Exfoliating Body Scrub** with several pumps of **Aqua-Mass** to a paste consistency. Using light circular movements work over each body area. With steam towels or warm, damp mitts remove scrub mixture and dry each area with towel.
5. Turn client onto back and brush feet, legs, hips and buttocks, back, back of arms.
6. Continue to exfoliate the back of the body removing all traces of product when completed.
7. Choose **Body Treatment Oil** or **Body Massage Oil** suitable for client's needs. Proceed with massage of choice, working the back of the body. Alternatively smooth **Body Treatment Oil** sparingly to back of body if massage is being omitted.
8. Turn client and massage front of the body.
9. Using either **Marine Mud Body Wrap** (ready to use) or **Self Heating Body Wrap** (2-3 level scoops) mix with equal parts of warm water and apply quickly to all parts of the body.

(Remember to remove towels client is lying on) Start with client sitting upright, apply to back, lie client back down, apply to the back of bent legs, front legs, arms, and front torso. Wrap client in plastic sheet, blanket and cover with bath sheet.

10. While mask is on perform scalp, face or foot massage.
11. After 20 minutes reveal one area at a time and remove the mask with steam towels or mitts until all mask has been removed, finishing with the back. Remove spa sheet.
12. Select appropriate body moisturizer and apply to back, décolleté, arms, abdomen and legs. Perform foot and ankle stretch. Assist the client off the couch and serve a glass of water with a slice of lemon.

SPECIFIC BODY PROTOCOL THIGHS, BUMS AND TUMS DETOX

1. Have client wear disposable underwear; remove all jewellery and obstructive piercings. Lower half of the bed should be draped with plastic spa sheet on top for client to lie on and cover client with hand towel for upper body modesty and bath towel.
2. Exposing one body area at a time, with client lying face up begin dry body brushing on thighs using long stroking movements towards the inguinal lymph nodes.
3. Dry body brush on abdomen area using circular movements and finish by draining toward inguinal lymph nodes.
4. Mix 1-teaspoon of **Exfoliating Body Scrub** with several pumps of **Aqua-Mass** and using light circular movements work over each thigh. With damp mitts remove scrub mixture and dry each thigh with towel.
5. Continue working over abdomen, then remove scrub.
6. Choose appropriate **BodyTreatment Oil** or **Body Massage Oil** suitable for client's needs. Proceed with massage of choice, working the front of the body.
7. Turn client to face down and brush thighs, hips and buttocks directing movements up and over hips.
8. Continue with exfoliation using light circular movements removing all traces of product when completed.
9. Spread chosen oil into skin and proceed with massage of choice, working the back of the body.
10. Seaweed Masks, using either **Marine Mud** (ready to use) or mix **Self Heating Body Wrap** (1 level scoop) with equal parts of warm water. Apply quickly to backs of thighs and buttocks. Turn client and apply to front of legs and abdomen then cover with plastic film with towel over the top and leave for 20 minutes. While mask is on perform scalp, face or foot massage.
11. After 20 minutes reveal one area at a time and remove **Marine Mud** or **Self Heating Body Wrap** with damp, warm mitts until all mask has been removed.
12. Select **Cellu-lose Contour Cream** and apply to legs, abdomen and buttocks. Assist the client off the couch and serve a glass of water with a slice of lemon.

SPECIFIC BODY PROTOCOL THIGH CELLULITE TREATMENT

1. Have client wear disposable underwear; remove all jewellery and obstructive piercings. Lower half of the bed should be draped with plastic spa sheet on top for client to lie on and cover client with hand towel for upper body modesty and bath towel.
2. Exposing the thigh, with client lying on their side begin dry body brushing on thighs using long stroking movements towards the inguinal lymph nodes.
3. Mix 1 **teaspoon** of **Exfoliating Body Scrub** with several pumps of **Aqua-Mass** and using light circular movements work the thigh. With damp mitts remove scrub mixture and dry area with towel.
4. Choose appropriate **BodyTreatment Oil** or **Body Massage Oil** suitable for clients' needs. Proceed with massage of choice, working the outside of the thigh.
5. Turn client to lie on other side and repeat steps 2, 3 & 4.
6. Mix 6 rounded scoops of **Elimination Mask** with 6 scoops of tepid water. Apply in a thick layer to outer thigh. Wrap plastic film over mask and have client roll onto other side and apply mask to other thigh. Wrap film over this thigh and ask client to turn onto back. Cover with a towel and leave to set for 20 minutes. While mask is on perform scalp, face or foot massage.
7. After 20 minutes reveal one area at a time simply peel off the Elimination Mask.
8. Apply **Cellu-lose Contour Cream** to thighs.

9. Assist the client off the couch and serve a glass of water with a slice of lemon.

SPECIFIC BODY PROTOCOL UPPER ARMS FIRMING TREATMENT

1. Have client wear facial gown and remove any jewellery. Upper half of the bed should be draped with couch roll to protect couch cover.
2. Exposing one body area at a time, with client lying face up begin dry body brushing on upper arms using long stroking movements towards the axillary lymph nodes.
3. **Take a half teaspoon amount** of **Exfoliating Mousse** add some water to hands and using light circular movements work over each upper arm. With damp mitts remove exfoliant and dry each arm with towel.
4. Choose **Body Firming Massage Oil** and proceed with massage of choice.
5. Apply a small amount of Ice Tone to upper arms and work into skin.
6. Mix 3 rounded scoops of **Toning Mask** with 3 scoops of tepid water. Apply a thick layer to upper arms. Allow mask to set and leave on for 20 minutes. While mask is on perform scalp, face or foot massage.
7. After 20 minutes simply peel off mask from each arm.
8. Apply **Ice Tone** to upper arms.

SPECIFIC BODY PROTOCOL TUMMY TONING

1. Have client wear disposable underwear; remove all jewellery and obstructive piercings. Ensure couch is protected with couch roll and cover client with hand towel for upper body modesty and bath towel over legs.
2. Exposing abdomen begin dry body brushing in circular movements. Continue with inward strokes towards the inguinal lymph nodes.
3. **Take a half teaspoon amount** of **Exfoliating Mousse** add some water to hands and using light circular movements work over abdomen. With damp mitts remove exfoliant and dry the area with towel.
4. Choose appropriate **BodyTreatment Oil** or **Body Massage Oil** suitable for clients' needs. Proceed with massage of choice, working the abdomen area.
5. Apply a thin layer of **Ice Tone** and work into skin of abdomen.
6. Option One: Peel Off Masks – Mix 3 heaped scoops of **Toning Mask** with 3 scoops of tepid water. Apply in a thick layer to abdomen. Allow to set for 20 minutes. While mask is on perform scalp, face or foot massage.
7. After 20 minutes simply peel off the **Toning Mask**.
8. Re-apply a thin layer of **Ice Tone** to abdomen. Assist the client off the couch and serve a glass of water with
